6. Rs. 127,468 in Other Education-Related Initiatives Benefitted about 950 Students from several Schools, Colleges, and Institutions.

Notebooks, school bags, Desks, Water Filters, Water Storage Tank, Computer Monitor, Desk Top Computers, sewing machines etc. were provided upon request to several schools, colleges, and institutions (See Page #12 for details).

Many students in the primary school come to school without breakfast as their parents cannot afford to provide it. Students cannot grasp what is taught if they are mal-nourished. Based on the success of the Pilot Program that was instituted two years ago to provide breakfast to students of local schools, we decided to continue this program of providing Poha and Upama twice a week to the students of 6 schools with the hope of increasing literacy. Students' attendance increased after we started the Breakfast Program. The six schools are LPS Kantriwada, LPS Hunasemakki, HPS Kuvempu Todur Colony, HPS Todur, LPS Jadigadde, and LPS Idoor.

Many rural students lack presentation skills and do not possess adequate interpersonal skills. Personality development holds a key role in person's ability to succeed in whatever career one chooses. Effective development of personality will help build stronger relationship and positive attitude towards life and ultimately will dictate success not only in one's career but also in family life. Unfortunately, these essential skills are not taught in schools or colleges.

A pilot workshop on Personality Development and Career Guidance will be conducted for Final Year students of government colleges. Several topics such as leadership, team building, motivation, positive thinking, planning, creativity, Innovation, and communication skills will be covered.

D. WOMEN EMPOWERMENT

Women population is about half of the total population of the world. The empowerment of women would result in overall development of society both at micro and macro level and world would definitely become a better place to live. Active participation of women in economic activities and decision making would contribute towards overall economic development. **Women Empowerment** refers to the creation of an environment for women where they can make decisions of their own for their personal benefits as well as for the society. Hence, Women Empowerment is about strengthening the social, economic, and educational powers of women. Towards this end, we focus on empowerment through education. Another program is to enhance economic status of women by providing financial assistance to local women.

1. Provide Hostel Facility to Poor Girls

We encourage parents of rural girls to continue their daughters' education because in many instances they tend to send their daughters as maid to cities after 7th standard. By providing hostel facility and by inspiring them to achieve their fullest potential, girls continue their education.

2. Economic Empowerment of Needy Women

Initial financial assistance was provided to Durgamba Stree Shakti Sangh, a self help group, for buying a sewing machine, sewing accessories, and clothes. The members earned an additional income by stitching clothes and selling them. Some profit was put back in the business to buy more materials and to further grow the business. These women felt empowered because they made their own decisions and were very productive. Other ideas such as making food products,

Education Program was prioritized by providing financial assistance for education and hostel facility for the poor students.
